

About Pendants

As graceful as a teardrop, our pendant lighting provides interest and warmth to any setting in a less formal style.

Pendant Lighting can provide both task and general lighting. Equipped with shades or globes to avoid glare, they are suspended from the ceiling over dinette tables, game tables, kitchen counters, or other work areas. When used over end or night tables, they free up the space occupied by table lamps.

Pendant Lights whether casual, contemporary, eclectic, modern, transitional, or simply traditional, www.Luminairlite.com's pendants are the perfect way to achieve your desired fashion or functional needs. Our designers pride themselves for using unique designs and shade materials that make these products some of the most attractive and desired styles available today in pendant lights.

As one of the most recognized names in Traditional Pendant lighting, www.Luminairlite.com is proud to feature hundreds of styles making us the selection of Home Builders, Architects, and Interior Designers today. www.Luminairlite.com's traditional pendant lighting is available in many sizes for indoor use.

Modern pendant Lighting is also delivered by www.Luminairlite.com. Select plated and hand painted finishes and a variety of other finishes.
